Telephone No.
Include Area Code

5 ACTUAL LOCATION WHERE MATERIAL WILL BE GROWN, INCLUDING COUNTY / Please be specific. State precise location of property, or if no number, describe location of property in relation to roads and/or landmarks. Do NOT use post office box numbers.

AGREEMENT

As a condition of importing nursery stock governed by postentry quarantine provisions of the Nursery Stock, Plants, Roots, Bulbs, Seeds, and Other Plant Products regulation (7 CFR 319.37) the following requirements must be met:

- All plant material will be grown in premises supervised and controlled by me, located as specified in Item 5 above, and will not be moved without prior written permission of a Federal officer.
- Properly identified officers, either Federal and/or State, will be given access to the premises listed in Item 5 during regular business hours.
- The plant material and all increase thereon will be labeled by specific plant name, port account number, and date of importation.
- This plant material will be separated from domestic stock of the same genus including such stock on adjoining premises by no less than 3 meters (approximately 10 feet), and will be separated from other imported plants by the same distance.
- No distribution of these plants, increase from these plants, nor any part thereof, including cuttings, stickers, flowers, seed, or air layers will be made until the plant is released from quarantine, or written permission is obtained from a Federal officer.
- Any treatments prescribed by the officer including destruction of the quarantined plant material or other plants growing on the premises will be complied with to prevent the dissemination of a plant pest.
- The State official or the Federal officer will be notified when any abnormality is noticed in the plant material or if the plant material dies. Dead plants will be retained and submitted by the officer for analysis.
- Notification of change of address will be sent to the Postentry Quarantine Unit, Bldg. 580 BARC-EAST, Beltsville, MD 20705.
- Plants of Rubus spp. from Europe will be grown in a greenhouse (16 mesh per inch minimum); plants of Chrysanthemum spp. and Dianthus spp. will be grown in a greenhouse or other enclosed building.
- The quarantine requirements will be applied to Chrysanthemum spp. for 8 months after importation, to Dianthus spp. for 1 year after importation, and to all other plants for 2 years after importation.

I, as responsible agent, have read this agreement and agree to the above conditions, and understand that violation of the terms of this agreement will result in the cancellation of my postentry permit.
